Blount's Celebrated Crucible Cast Steel Plows Best in the United States

BEWARE OF IMITATIONS

To Our Farmer Friends and Patrons who Receive this Folder.

WE WISH to thank you for the liberal patronage we have received during these many years and assure you it will be our aim to maintain the high reputation we have obtained for making none but honest goods. Our Riding Plows, Cultivators, as well as Walking Plows, combine simplicity, strength, durability, ease of management and control. Any blacksmith will inform you that "Blount's True Blue" is made of the very best Crucible Cast Steel, which will last twice as long as ordinary plow steel generally used by other plow makers. We warrant our goods as represented, and all we ask is a trial to convince you. So go and buy one, and you will never regret it.

Very truly yours,

HENRY F. BLOUNT.

Blount's Lister or Double Mold Board Plow.

WOOD AND STEEL BEAM.

(SEE ILLUSTRATION)

THIS PLOW can be used to great advantage in small cotton after it has been scarped. While one side of the Plow throws dirt to the plant the other covers and kills the grass left by scraper in the dead furrow. It is used for raising middles, throwing a furrow both ways, thereby doing twice the work of an ordinary plow. It can also be used to equal advantage in hilling up potatoes and tobacco. It is now supplied with a movable heel, which can easily be replaced when worn out.

Nos. 10, 12, 13 and 14 made both with Wood and Steel Beam.

Nos. 8 and 18 Wood Beam Only.

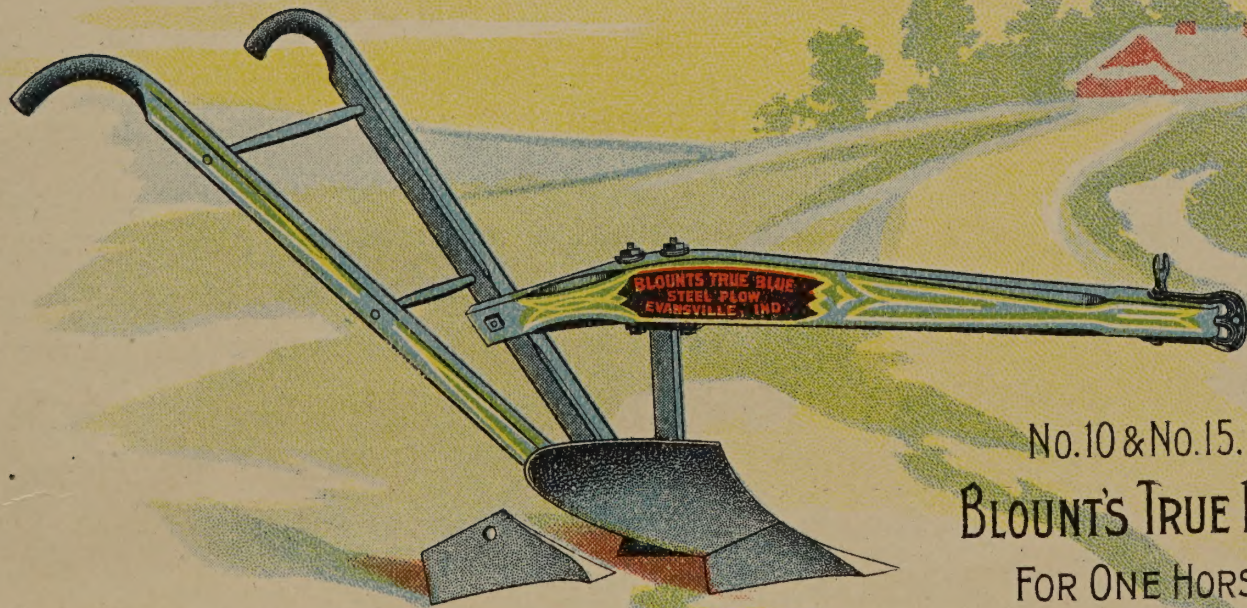

Blount's No. 10 and No. 15 True Blue Plows

FOR ONE HORSE.

(SEE ILLUSTRATION)

THESE PLOWS are same size as my No. 0 and No. 1, but have Wrought Standards and Cast Steel Landside Plates, which makes them very strong and durable. The Mold Board and Points contain Crucible Cast Steel, made especially for me—have no hesitancy in saying that they are the best one-horse Plows made in the United States. No. 10 Points are interchangeable with No. 0, and No. 15 with No. 1. The Standard being somewhat higher than my No. 0 and No. 1, gives additional room, prevents choking.

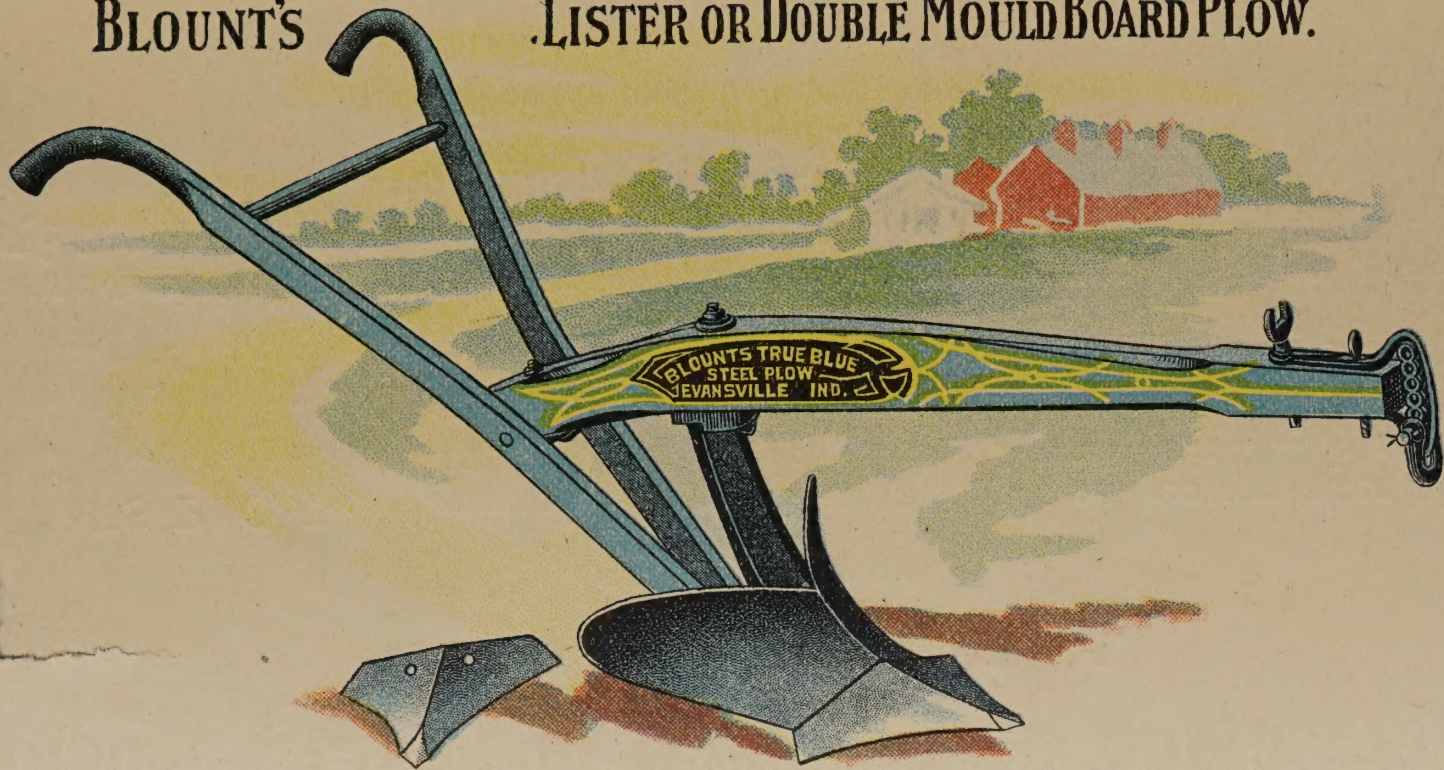

FOR SALE BY

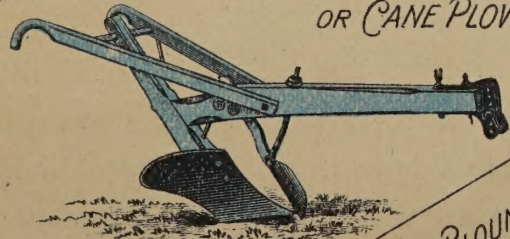

No. 10 & No. 15.
